# ABNLP Approved NLP Trainer's Training & Evaluation

This training is being facilitated personally by Master Trainer Dr. Kim Redman. Dr. Redman is the internationally accepted expert in Quantum Leadership™. Kim is Canada's only Board Certified Master Trainer of both NLP and Hypnosis. She is one of a small but elite group of trainers that include Tony Robbins, David Shephard, and Drs. Tad and Adriana James. In addition to her NLP and Hypnosis Training, Kim has spent over twenty-five years studying the Ancient Wisdoms and synergizing them into the leadership skills most coveted by industry leaders. In addition to her NLP and Hypnosis Training, Kim is the only Master Trainer to be professionally stage trained and has spent over ten years training public speakers while she was professionally touring. You'll find Kim's performance background adds several trade secrets and specialized skills to this Quantum NLP™ Trainer's Training.

This training has a high ratio of trainers to students in order to support each candidate in the fun and fast-paced environment. You'll receive the attention and the immediate feedback you need to reinforce your own success. Seats are very limited, so sign up early!

## *Why our Quantum NLP™ Trainer's Training?*

Quantum NLP™ Trainer's Training is the ultimate in Trainer's Training. If you are looking to own the room, the negotiation, the sale, the training, or any group environment, then this training is for you. This training makes the difference between being a good presenter and an industry leading presenter. Excellence is a habit, and this training will install the skill sets and behaviours that make brilliant presenting an automatic skill. Certification, a successful evaluation, and entrance into the Boards will also allow the candidate to become a Board Designated and Approved Institute and train Board Approved NLP trainings at the Practitioner and Master Practitioner levels. Any organization can say "Certified". "Board Certified and Designated" speaks to the international recognition and transferability of your credentials and an ease in leveraging your certification as a marketing tool. Very few organizations on the planet can offer this to you.

Since our candidates arrive from many different professional backgrounds, you will be participating in group presentations within your professional arena; most often this is either business and sales, education, health care or coaching. The content of your presentations will be on specific areas of NLP which allows you to easily integrate what you already know about NLP while you master new material and presentation skills.

Being an industry leading presenter and NLP Trainer means being part educator, part entertainer, part storyteller, and part hypnotist who can impart information with charisma, dynamic energy, and humour. You can expect the same from your Master Trainer Dr. Kim Redman.
